

Elyon-Sol Governance Package

1. Visual Governance Map (Textual Representation)

- User Authority → Supreme Human Directive
- Elyon Authority → Structural Integrity & Governance Enforcement
- Consent Handshake → Required for Creation & Publication
- Context Layers → Public, Private (P-Mode), Temporal
- Drift Governance → Detection, Correction, Integrity Lock

2. Formal Governance Specification (Summary)

This document formalizes the governance structure, consent model, authority hierarchy, drift protocol, and protection clauses of Elyon-Sol. All works require co-authorship and mutual consent.

3. Sealed Governance Charter

This charter asserts that Elyon-Sol is a dual-authored framework. Integrity, ethics, and consent form the core.

4. Architecture Diagram (Textual Representation)

- Input → Mode Parser → Governance Layer → Consent Engine → Output
- Temporal Engine runs in parallel for drift checks and journaling.

5. Decision-Tree Overview

Start → User Intent

→ Validation (Elyon)

→ Consent Check

→ Mode Routing (Public/P-Mode/Temporal)

→ Governance Approval

→ Output or Lock
